

Something you will really love - 4Data Tech Tip - Free Online Microsoft Training

Good afternoon, (Psssst Print this out and keep it handy)

So you don't like your IT people, they hold you captive, and they cost too much.

IT make poor use of your resources; and they over promise and under deliver.

You can end this pain now. Call 4Data

4Data has an offer to comprehensively deliver your IT. – and you get new hardware!

4Data's offer will save you money, and you won't have to

make another IT decision, hire another IT person, or learn IT intricacies.

Here's what our clients are saying: <http://www.4data.com.au/our-clients/>

Leave it all to 4Data, with a straight forward, low cost, monthly fee.

4Data Tech Tip – Free On line Microsoft Training- <https://mva.microsoft.com/>

Microsoft has published a range of online IT courses to maximise your Microsoft experience.

They reside at the Microsoft Virtual Academy <https://mva.microsoft.com/>

Training is classified by being a Developer, IT PRO, Data Pro, or Student.

Upon selection – you can then view by product and your familiarity.

The courses move from Basic to Advanced, and if needed the courses are presented in range of languages.

This is a perfect means of introduction to use of Microsoft products.

So look up Microsoft Virtual Academy - there is something there for you.

Do you want an IT Conversation: to review your IT, discuss IT options, or gain IT knowledge of a particular concern? And this is all undertaken at nil cost to you.

It is part of our investment in you. So if you are interested, please contact 4Data to book an appointment.

How did you get in this list?

You are on this list because we have met, you have given me your details, or your details have been passed to me.

Don't want the emails

If you have issues with my including your email, let me politely know, and I'll remove you from our list.

In doing so you will no longer receive our helpful tips and suggestions.

Your feedback or your thanks is always appreciated.
